Did you know?

35% of manufacturers said they were working on, or planning to implement energy-saving measures; and that a significant increase in energy prices would leave 46% of manufacturing companies vulnerable. *Barclay's 2016 Powering on report (based on a survey of 525 manufacturing businesses)*

Act Now

BIU is an industry expert with an accredited team of specialists understanding and supporting businesses through the complexities of compliance. Our service covers all industry-related services related to ESOS, CCA, P272, CRC, GHG Reporting, MEES, CDP, Heat Metering Incentives, and ISO50001. BIU encourages all of our clients to take energy consumption and carbon emissions seriously.

Marc Holdsworth, Sales Manager

Marc has worked within the energy sector for nearly a decade and it's his job to identify areas where new clients can make changes to the way they manage their utilities in order to bring about substantial savings and benefits.
